

# The Pole Choker®

## Pole Choker's Standard Features

- The Pole Choker meets all the requirements for a type A Positioning Strap in ASTM F887-04 and Class D Linemen's Pole Strap in CSA Z259.11-05.
- Made with a drop-forged tongue buckle on a six-ply neoprene impregnated webbing.
- The yellow choker strap is adjustable, helping the worker to extend his reach in a safer manner. When the choker strap is disconnected, it functions the same as a standard pole strap.
- The Pole Choker can be fitted with a Jelco belt-mounted retractable device for climbing past an obstacle.
- The Pole Choker can also be used to secure a ladder to a neutral cable or to secure the worker to the ladder.
- The Pole Choker is the widest used fall restricting device in North America. It is the most user-friendly and easy device to learn how to operate.
- The Pole Choker is made in 4 different models, each in 4 sizes, for a total of 16 units.
- The Pole Choker is a standard stock item.
