

Lineman's Belt Sizing Information

All Jelco lineman's belts are made to the ASTM and CSA sizing standards.

For your “D to D” measurement, you will measure around the back from hipbone to hipbone, and then add 2”. This will give you your “D size.”

For the center hole distance, that measurement is approximately your waist size plus 10”. This should also correspond to the appropriate “D size.”

| D to D Distance | Minimum Length | Center Hole Distance | Maximum Length |
|-----------------|----------------|----------------------|----------------|
| D 18 | 32" | 36" | 40" |
| D 19 | 33" | 37" | 41" |
| D 20 | 34" | 38" | 42" |
| D 21 | 36" | 40" | 44" |
| D 22 | 37" | 41" | 45" |
| D 23 | 38" | 42" | 46" |
| D 24 | 40" | 44" | 48" |
| D 25 | 41" | 45" | 49" |
| D 26 | 42" | 46" | 50" |
| D 27 | 44" | 48" | 52" |
| D 28 | 45" | 49" | 53" |
| D 29 | 46" | 50" | 54" |
| D 30 | 47" | 51" | 55" |
