

USA HANDCRAFTED LINEMAN'S PRODUCTS SINCE 1892 CANADA

New Product Announcement LINX Cable Hook

Features:

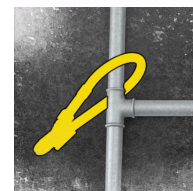

- The newest in hook technology to easily traverse and work on large structures including 4" angle iron.
- The usability of a snap hook with the strength and security of a wire rope sling.
- Versatility to be used as a connector or as an anchorage point.
- Mil Spec Ball Shank termination allows for omni-directional strength in a transverse loading condition.
- The wire rope core allows the LINX to stretch, bend or twist omni-directionally without failure.
- Can be used in a tie-back function with a twin leg lanyard.
- Ambidextrous Gate.

Material Specifications:

- Aluminum Alloy Frame
- Stainless Steel Wire Rope Core
- Side Load tested to 3,600 lb / 16kN
- Minimum Breaking Load 5,000 lb / 23 kN
- Interior diameter: 5 3/4"
-

Meets the following applicable standards:

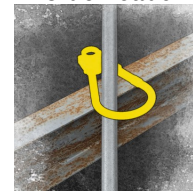

- ANSI, ASTM, CSA and OSHA
